Mel,

My priorities for MPS are:

Rolling Knolls Data Gap - Sampling Report (The whole RI process is being delayed until we get DESA's review of this)

American Cyanamid - Monitoring Report

American Cyanamid - Monitoring Work Plan

GEMS Landfill - BERA

Rolling Knolls - Candidate Technology Report

Subject: Backlog of Ecological Documents Awaiting Review

Angela, Carole, Doug and Mel -

Attached please find the current list of ecological documents in-house at HWSB awaiting review. The sites are listed for NJ, NY and Federal Facilities, with five Year Reviews listed separately.

Review priorities need to be assigned by ERRD management in order to remain aligned with your priorities for this year. Turn-around time requested is typically 30 days, which, may be delayed for some documents given the high number of documents currently in-house. Additional documents may arrive in upcoming weeks, and the prioritization process will need to be repeated if warranted.

Please let me know if you have any questions and identify for me your highest priority rankings for the listed documents. Thanks!

Jon
